1. What are cookies and other tracking technologies?

Cookies are small pieces of data (alpha-numerical files) which are downloaded to your device when you visit a website to collect information about your use of the website. Cookies are sent back to the originating website on each subsequent visit, or to another website that recognises that cookie. Cookies are useful because they allow our website to remember information about you to make it easier for you to use our website. Other tracking technologies may use unique identifiers to track and facilitate your use of our Website.

You can find more information about cookies and other tracking technologies at www.allaboutcookies.org and www.youronlinechoices.eu.
